Twinings Peach Cooler

From the teas.co.uk wiki

> **Twinings Peach Cooler, in summary:** The cold-brew-optimised peach summer drink: a 5 to 10 minute fridge brew, no kettle, with a finer leaf cut.

Last reviewed by the teas.co.uk team in April 2026.

Twinings Peach Cooler is part of the brand's Cold Infuse range, designed specifically for cold-water brewing in 5 to 10 minutes rather than the 6-to-8-hour wait standard tea bags need. Larger fruit and tea pieces mean faster cold extraction: drop one bag in a 500ml water bottle, wait 5 minutes, drink. Excellent calorie-free summer hydration, and the format that turns iced fruit tea into a grab-and-go office drink.

The product

A Cold Infuse bag with larger fruit and tea pieces designed for direct cold-water extraction. Standard tea bags use small particles for fast hot extraction; Cold Infuse bags use larger particles that release flavour efficiently in cold water without the bitterness that long cold-brewing of standard bags can produce.

How to use

1. 1 bag in 500ml cold water (a standard sports bottle).
2. Wait 5 to 10 minutes, far faster than the 6-to-8-hour fridge cold-brew of standard bags.
3. Drink chilled; the bag can stay in the bottle while you drink.
4. Refill once with the same bag for a second 500ml; the flavour will be lighter.
5. Discard after a single use; it is not designed for hot brewing.

How it tastes

A bright peach lead, lightly sweet, faintly floral, cleanly refreshing. Less intense than the hot-brewed Twinings Peach and Orange, but far more vivid than you would get cold-brewing a standard bag for 5 minutes. The format delivers on its promise. Curator Rating: 4.9/5.

Use cases

- An office water bottle, the natural format.
- Travel and commuting; drop a bag in a bottle in the morning.
- A picnic and gym-bag drink.
- Caffeine-free with no added sugar, so an easy family option.
- A soft-drink alternative for hot weather.

Cold Infuse versus cold-brewing standard bags

Standard Twinings fruit bags can be cold-brewed too (6 to 8 hours in the fridge), and most are excellent that way. Cold Infuse bags do the same job in 5 to 10 minutes by using bigger particles; the trade-off is they do not hot-brew well. Pick Cold Infuse for convenience, or standard bags if you want one format for both.

The essentials: Twinings Peach Cooler

Field	Detail
Brand	Twinings Cold Infuse range (designed-for-cold-brewing variants)
Format	Pre-portioned cold-brew sachets; one sachet per 500ml cold water
Ingredients	Apple, hibiscus, peach pieces, lemon peel, natural flavourings
Caffeine	None; caffeine-free cold infusion
Cup character	Light peach-and-citrus, summer-fresh, lower tannin than hot-brewed-then-chilled
UK availability	Most UK supermarkets in summer (peak May-September stocking), online direct
UK price	£3 to £4 per 12-sachet box (25-33p per 500ml serving)

FAQ

Caffeine? None.

Vegan? Yes.

Cold water only? Yes, designed specifically; it does not hot-brew well.

Travel friendly? Excellent.

How long in the bottle? Drink within 24 hours for the best flavour.

Curator's note: Twinings Peach Cooler is the cold infuse specific format. Convenient for water bottle use. Lee, teas.co.uk, Tunbridge Wells.

What to buy now

Buy Twinings Peach Cooler as the convenience cold-brew summer staple. Compare with other Twinings Cold Infuse variants (citrus, mixed berry, mango and orange), or cold-brew a quality hibiscus tea overnight for the single-herb route. Browse the wider Twinings range.

FROM THE CURATOR

teas · For a cooler, how you brew it matters more than where it came from. Cold brewed with care, a budget bag can beat a carelessly iced premium one.

The bottom line

Twinings' designed-for-cold peach drink: finer-cut leaf optimised for cold-water extraction, a 5 to 10 minute fridge brew, no kettle needed. Worth keeping from May to September for summer afternoons, gym hydration, picnics and kettleless desks. One sachet in 500ml of cold water delivers cleaner peach-and-citrus than hot-brewed-then-chilled fruit tea, with no caffeine.
