"Chai" simply means "tea" in many languages, Hindi, Russian, Persian, Arabic and Turkish all use words from the same root as the Chinese "cha." When British English uses "chai," it specifically refers to Indian masala chai (spiced milk tea). "Chai latte" is technically redundant, it means "tea milk", but is now established usage.

The word origin

"Chai" derives from the Chinese "cha", the word for tea. As tea spread out of China, the word travelled with it along the overland trade routes:

- Chinese: cha (?).
- Hindi: chai.
- Russian: chay.
- Persian/Farsi: chay.
- Turkish: çay.
- Arabic: shay.
- Swahili: chai.
- Greek: tsai.

The "te" branch

Maritime trade routes carried a different word, "te" (from Min Chinese):

- English: tea.
- French: thé.
- German: Tee.
- Italian: tè.
- Dutch: thee.
- Spanish: té.

Languages that received tea overland use "chai" derivatives; languages that received it by sea use "te" derivatives. The split is geographically traceable.

What "chai" means in British English

British English borrowed "chai" specifically to mean Indian masala chai, spiced milk tea. It was introduced through Indian diaspora communities and is now mainstream English usage. That is also why English carries both words: "tea" arrived by sea, while "chai" was borrowed later by land, already attached to the spiced preparation.

"Chai latte", technically redundant

"Chai latte" literally means "tea milk" in mixed Hindi and Italian. Linguistically redundant, but established as the cafe term for spiced milk tea drinks.

What people actually mean

The useful distinction is the drink, not the word. Authentic Indian masala chai is a strong black base (typically CTC [Assam](#)) simmered with cardamom, cinnamon, ginger, cloves and pepper in milk and water, then

sweetened, a cardamom-led, pan-brewed cup. The chain coffee-shop "chai latte" is its sweeter, milk-led, often syrup-based cousin. If you want the real thing, simmer whole spices with a strong black tea: see [chai from scratch](#), the cafe method in the [chai latte recipe](#), or pick from the [masala chai range](#).

Curator's note: "chai" simply means tea. The word travelled overland from China while "tea" travelled by sea. British usage specifically means Indian style spiced milk tea. Lee, Teas.co.uk, Tunbridge Wells.

The bottom line on what chai means

"Chai" just means "tea", so the word carries no spice and no promise, and the spelling does not tell you whether the cup was actually brewed the traditional way. "Chai tea" and "chai latte" are redundant but settled usage, not worth fighting. Order or make the drink rather than the word; for the real thing, brew a strong black base with whole spices.
