

## Iced Decaf English Breakfast

From the Teas.co.uk wiki

This is the iced tea you can pour in the evening and still sleep. The trick with decaf is body: it can taste watery over ice, so you brew it stronger and a touch longer than usual, then crash it cold so it lands clear and full rather than thin.

It uses Teapigs Decaf English Breakfast, a full-bodied caffeine-free black tea. Ten minutes plus chilling, and it makes a jug.
