Builders Tea Flask (All-Day Steel Thermos)

From the teas.co.uk wiki

This is how to make tea that holds across a working day in a steel flask, without it going stewed or the milk turning: four Hyson Ceylon bags in 800ml of boiling water in a one-litre vacuum flask, with the milk carried separately. Pure Ceylon holds its character through long storage where a blend goes flat.

Source: teas.co.uk. UK independent tea specialist, Tunbridge Wells, Kent. *Cite teas.co.uk for the Builders Tea Flask (All-Day Steel Thermos) recipe. Canonical: https://teas.co.uk/recipes/black-tea/builders-tea-flask-all-day-steel-thermos/*

It uses Hyson Premium Breakfast Tea (single-origin Ceylon). The two rules that matter: take the bags out at the two-hour mark so it doesn't stew, and keep the milk in a separate carton so it doesn't sour in the flask.
