Black Tea Affogato

From the teas.co.uk wiki

This is an affogato made with strong black tea instead of espresso: a small, very concentrated shot of Teapigs Everyday Brew poured hot over cold vanilla ice cream, so it half-melts into a malty, creamy pool. The maltiness of a good builder's tea sits surprisingly well against vanilla, a bit like tea and biscuits turned into pudding.

It takes two minutes, has no coffee in it, and makes a proper grown-up dessert for tea drinkers. One serving.
