Iced Lemon Tea with Honey

From the teas.co.uk wiki

There is a reason iced lemon tea turns up in every cafe the moment the sun comes out: it is sharp, lightly sweet and endlessly drinkable. The bit most people skip is stirring the honey in while the tea is still warm, and it matters, because honey will not dissolve properly in a cold glass. Brew it strong, sweeten it, cool it down, and you end up with the real thing rather than the watery version that comes out of a carton.
