

## Vanilla and Caramel Tea Latte

From the Teas.co.uk wiki

A caramel latte is mostly milk, sweetness and warmth, and a flavoured tea can carry all three without the coffee. Brewing two bags in just a splash of water gives you a strong little concentrate that stands up to the milk rather than vanishing into it. Warm the milk gently and froth it, fold the two together, then run a thread of caramel over the top to finish. Pudding in a mug, more or less.
