Iced Ginger Chai

From the teas.co.uk wiki

Chai is not just a winter drink. Brewed strong with extra fresh ginger and cardamom, then cooled and poured over ice, it makes a cracking summer cooler. The milk gives it body, the ginger keeps its heat even over ice, and a slice or two of fresh lime on top cuts cleanly through the richness. Brew it double-strength so it does not turn watery as the ice melts.

Worth making a jug of the chai base ahead and keeping it cold in the fridge.
