

Iced Mint Mocha

From the Teas.co.uk wiki

An iced peppermint mocha, the kind of thing you queue for at a coffee shop, made at home for a fraction of the price. A thick mint hot chocolate base is cooled and poured over ice, then a shot of espresso and cold milk go on top, so you get chocolate, mint and coffee in one tall glass. Pour each layer slowly over the back of a spoon and it sits in neat bands.

Give it a good stir before drinking to bring the layers together.
