

Ceylon Pulled Milk Tea

From the Teas.co.uk wiki

Across Sri Lanka, milk tea is brewed strong in the pan with milk and sugar, then pulled: poured back and forth between two cups from as high as your arm will reach. It looks like a party trick, but it does a real job, cooling the tea to drinking temperature and whipping up a soft, frothy head. Ceylon black is the natural choice, being the island's own tea and malty enough to hold its own against the milk.

Do not worry about a tidy pour the first few times; practise over the sink until you find the rhythm. Start to finish, it takes about ten minutes.
