

Lemongrass and Coconut Latte

From the Teas.co.uk wiki

Lemongrass and coconut are a classic Thai pairing, and they work just as well warm in a mug as they do in a curry. You brew the lemongrass right down to a strong little concentrate, then top it with frothed coconut milk so the grassy citrus and the creamy coconut meet in the middle.

A spoon of honey ties it together. It is dairy-free, caffeine-free and a bit different, the sort of thing to make when an ordinary cup of tea will not do.
