An Evening Cup of Yorkshire Tea Decaf

From the teas.co.uk wiki

This is Yorkshire Tea with the caffeine taken out by Taylors of Harrogate, and crucially without the body stripped out with it. Brewed properly it still drinks like a real Yorkshire cup, only one you can have last thing at night.

The catch with any decaf is that it turns thin if you rush it. Give it boiling water and a steady four to five minutes, then finish with milk.
