

## Brewing Twinings Metabolism Green Tea (Without the Bitterness)

From the Teas.co.uk wiki

Getting this right comes down to the water: let the kettle stand a moment so it is off the boil before it hits the leaf. Green tea turns bitter if you scald it, so around 80C and a short two to three minute steep keep Twinings Metabolism fresh and lightly citrusy.

Makes one cup. Do not squeeze the bag, and add a slice of lemon if you fancy it.
