The Proper Hot Cup (Tropical Sun Green Tea, 80C, 2 Minutes)

From the teas.co.uk wiki

Green tea only needs one thing done right: do not scald it. Let the water cool to around 80C, checking with a thermometer or a temperature-controlled kettle, give Tropical Sun Green a short two-minute steep, and it comes out fresh and lightly grassy instead of bitter. If you have no temperature kettle, the trick is to start the mug with a splash of cold water.
