Tetley Super Fruits Boost Blueberry and Raspberry, 20 Tea Bags 40g

Actual catalogue photography · verified

Pack photography and availability verified 8 August 2026.

Quick answer: For a sharp red-fruit cup, start with **Good Earth Hibiscus, Rose & Sweet Berries** or **Dragonfly Rosehip & Raspberry**. For softer mainstream fruit, compare Lipton Berry Bliss and Twinings Fruits Mix. Tetley Super Fruits adds a labelled-vitamin route that needs exact-pack checking.

Highly polished against the live shop on 8 August 2026. Stock and price are dated snapshots.

The best fruit or herbal tea is not the one with the longest fruit list. It is the one whose base, tartness, sweetness and caffeine position fit the cup you actually want.

Tart, sweet or perfumed

Hibiscus and rosehip usually push a blend towards vivid colour and refreshing tartness. Apple and sweet roots can round the cup; flowers add aroma; flavourings can amplify named fruit. Decide whether you want mouth-puckering brightness, a softer berry cordial impression or a floral finish.

Caffeine requires an ingredient check

Many fruit and herbal infusions are naturally caffeine-free because they contain no *Camellia sinensis*. Some “fruit teas,” however, are green or black tea with fruit flavour. Check the exact product rather than applying one rule to the entire category.

Colour is not fruit content

A deep ruby cup can come largely from hibiscus; a pale infusion may still contain the named fruit. Neither colour nor front-of-box photography establishes ingredient quantity. The ordered ingredient list provides the better clue.

Brewing for iced tea

Use freshly boiled water and the pack steep time, then cool promptly. For ice, brew a little stronger so melting does not erase the flavour. Taste before adding syrup: many blends already contain naturally sweet-tasting ingredients even when no sugar is added.

How we keep this guide useful

Teas.co.uk is the retailer and the editor of this guide. No brand paid for inclusion or position. We start with products that are published and in stock in our own shop, then separate comparable products by tea family, ingredients, format, caffeine position and intended use. “Best” means the best fit for a stated need within this dated shortlist—not a universal tasting result.

Product names such as Sleep, Digest, Defence, Detox or Immune are treated as range labels, not medical evidence. Always read the current ingredient, allergen and preparation information on the pack. If you are pregnant, take medicines or manage a health condition, check ingredients such as liquorice root with an appropriate clinician. Last editorial and catalogue review: 8 August 2026.
