Best Flavoured Black Tea Bags UK

From the teas.co.uk wiki

Flavoured black pack photos and stock were verified on 8 August 2026.

> **Quick answer:** Choose by flavour family: **Lipton** covers red fruit, peach-mango, lemon and orange in 20-bag international packs; **Hyson** offers blackcurrant, lemon and peach in 32-bag boxes. Every option remains black tea, so fruit flavour does not remove caffeine.

Highly polished against the live shop on 8 August 2026. Stock and price are dated snapshots.

Flavoured black tea keeps the body and briskness of true tea while adding aroma. That makes it different from a caffeine-free fruit infusion, even when the box shows the same fruit.

Start with the flavour family

Citrus cuts through black-tea briskness; red fruit adds a berry aroma; peach and mango soften the impression; vanilla or caramel, where available, lead towards dessert. Choose that family first, then compare brand, bag count and price within it.

Lemon gives the fairest brand test

Both Lipton and Hyson currently offer lemon-flavoured black tea, creating the closest like-for-like tasting. Brew equal water and time, taste neat, and note whether the lemon reads as zest, juice-like brightness or confectionery aroma.

Milk is possible, not compulsory

Flavoured black tea retains enough body for milk, but not every fruit welcomes it. Citrus can clash or curdle under some conditions, while peach, berry, vanilla or caramel may be gentler. Taste without milk first and add a very small amount only if it improves the cup.

Ingredient language matters

“With strawberries” or “lemon tea” does not by itself establish the fruit percentage or flavour source. Check the exact ingredient list for fruit pieces, peel, extracts and flavourings. Avoid turning packaging romance into a factual quantity claim.

How we keep this guide useful

teas.co.uk both sells these flavoured blacks and decides what appears in the guide. No brand paid for inclusion or position. First comes the live, in stock shelf in our own shop; after that we group the comparable bags by intended use, flavour family, format, caffeine position and ingredients. “Best” is shorthand for the best fit to a stated need, judged within this dated shortlist, and not a universal tasting verdict.
